2 **ABSTRACT**

3 A data protection portion includes the file alteration checking portion.  
4 One aspect of the file alteration checking portion relates to a media  
5 including game content and a data protection portion. In one version, the  
6 data protection portion protects the game content from modification by  
7 determining whether the game content has been modified. If the game  
8 content has been modified, then the installation of the game content within  
9 the apparatus fails.
